Our President – Shri Shyam Sunder

Students Welfare Society was established to Provide Quality Education to the children. The A.V.N. Global School mission is to provide students with an enriched and supportive aim that helps them to live and learn in a changing world. I believe that every child has talent, his own strength, if fostered in a caring environment will lead to success. I aim to provide a lively, warm and purposeful atmosphere for the pursuit of academic excellence. We prepare each student for a live with enduring values and conviction. To equipped them the capacity for intellectual thinking as well as practical reasoning, so they can make contribution to the Global Village.

Our Principal– Monika Khanna

The modern age is one of quick developments, spectacular achievements and unbelievable progress in every field. Education strives for perfection of man's powers in their completeness. I firmly believe that education determines the character and skill of all children. The main part of intellectual education is not acquisition of facts but learning how to make facts live. Here we are teaching our children not how to cut flowers instead how to grow their own plants. We always strives to light candles of greatness, to dissolve darkness of ignorance and fear. We do the duty to develop and equip the child as an individual, to train and motivate him and to teach him his responsibilities. A rich may become poor, but literate will never become illiterate, educated will never become uneducated and a scholar will never become a fool. That is the perennial significance of education.

Aim & Objective

To create an environment that increases academic, social and emotional success in AVN students by student-teacher participation, physical and emotional safety, academic engagements, implementing flexible teaching methods and relevance of learning.
